Professional Summary

IT Support Engineer specializing in Active Directory, Microsoft Entra ID and Identity & Access Management with 4 years of hands-on experience supporting hybrid Active Directory and Microsoft Entra ID environments in enterprise operations. Skilled in user lifecycle management, authentication troubleshooting, Group Policy, MFA, Conditional Access, RBAC, Microsoft 365, Windows Server, and ITIL-based service operations. Experienced in PowerShell automation for AD reporting and privileged-account lifecycle controls, with strong exposure to ServiceNow and Jira. Holds a BSc (Hons) in Computer Science, Microsoft AZ-104 and AZ-900 certifications.

Technical Skills

Identity & Access: Active Directory (AD DS), Microsoft Entra ID (Azure AD), User Lifecycle Management, RBAC, MFA, SSO, Conditional Access, Group Policy (GPO)

Microsoft & Cloud: Microsoft Entra ID, Microsoft Azure, Microsoft 365, Windows Server, Active Directory Domain Services, Domain Controllers

Operations & ITSM: L1/L2 Support, Incident Management, Change Management, Request Fulfillment, Access Management, SLA-focused Support, ServiceNow, Jira, Documentation & Reporting

Automation & Security: PowerShell scripting, Scheduled reporting, Privileged-account lifecycle controls, Access reviews, Identity security

Professional Experience

HCLTech | IT Support Engineer - Hybrid Active Directory

April 2022 – Present

- Provide **L1/L2 support for Active Directory and Microsoft Entra ID**, including user accounts, authentication, access management and identity administration.
- Manage **user identity lifecycle** activities, including account provisioning, access changes, administrative account management and account disablement.
- Troubleshoot **authentication, access and directory synchronization issues** affecting users and enterprise applications.
- Administer **Group Policy Objects (GPOs)** and support approved configuration changes based on security and operational requirements.
- Support **Microsoft Entra ID App Registrations and Enterprise Applications**, including application access and identity configuration.
- Support **SAML authentication certificate and application client secret renewals**, coordinating changes with application and infrastructure teams.
- Perform **Active Directory Domain Controller maintenance and patching** as part of ongoing directory infrastructure operations.
- Develop and maintain **PowerShell-based identity reporting** to identify stale Active Directory accounts and correlate on-premises users with Microsoft Entra ID sign-in information.
- Support **privileged and standard account lifecycle management**, including regular validation of administrative accounts against their associated standard user accounts.
- Execute approved **Active Directory, Group Policy and Microsoft Entra ID changes**, following change management procedures and maintaining required documentation.
- Support **Microsoft 365 administration, user provisioning, software installation and endpoint compliance** activities within enterprise IT operations.
- Manage **incidents, service requests and access requests** through ServiceNow and Jira, following ITIL processes and focusing on SLA compliance and timely resolution.

Automation Projects

1. Automated Active Directory User Reporting & Email Distribution

- Developed PowerShell automation to generate scheduled weekly Active Directory user reports.
- Automated report generation, file attachment and email distribution to designated stakeholders.
- Reduced repetitive manual reporting effort and improved reporting consistency and timeliness.

2. Automated Administrative Account Disablement

- Developed a weekly PowerShell automation to identify disabled standard user accounts and disable the corresponding administrative accounts.
- Applied account-mapping logic so the appropriate privileged account is disabled when its associated standard account is disabled.
- Strengthened privileged-account lifecycle management and reduced the risk of unnecessary administrative access remaining active.

Education

BSc (Hons) Computer Science (Software Engineering)

University of Wolverhampton | 2023

Higher National Diploma (HND) in Computing

IDM City Campus (Pearson BTEC – Edexcel UK) | 2022

Certifications

- Microsoft Azure Administrator Associate (AZ-104)
- Microsoft Azure Fundamentals (AZ-900)
- Administer Active Directory Domain Services Certification

Languages

- Tamil – Native
- English – Professional Proficiency
